Introducing PHARMAC

PHARMAC, the Pharmaceutical Management Agency, is a Crown entity established pursuant to the New Zealand Public Health and Disability Act 2000 (The Act). The primary objective of PHARMAC is to secure for eligible people in need of pharmaceuticals, the best health outcomes that are reasonably achievable from pharmaceutical treatment and from within the amount of funding provided.

The PHARMAC Board consists of up to six members appointed by the Minister of Health. All decisions relating to PHARMAC's operation are made by or under the authority of the Board. In particular, Board members decide on the strategic direction of PHARMAC and may decide which community pharmaceuticals should be subsidised and at what levels, and determine national prices for some pharmaceuticals to be purchased by and used in DHB Hospitals, and whether or not special conditions are to be applied to such purchases.

Members of the PHARMAC Board

Stuart McLauchlan
Anne Kolbe

Kura Denness
Jens Mueller

David Kerr

Decisions taken by the PHARMAC Board members, or made under the authority of the Board, incorporate a balanced view of the needs of prescribers and patients. The aim is to achieve long-term gains and efficient ways of making pharmaceuticals available to the community and for DHB Hospitals to purchase them.

The functions of PHARMAC are to perform the following, within the amount of funding provided to it in the Pharmaceutical Budget or to DHBs from their own budgets for the use of pharmaceuticals in their hospitals, as applicable, and in accordance with its annual plan and any directions given by the Minister (Section 103 of the Crown Entities Act):

- a) to maintain and manage a pharmaceutical schedule that applies consistently throughout New Zealand, including determining eligibility and criteria for the provision of subsidies;
- b) to manage incidental matters arising out of (a), including in exceptional circumstances providing for subsidies for the supply of pharmaceuticals not on the pharmaceutical schedule;
- c) to engage as it sees fit, but within its operational budget, in research to meet its objectives as set out in Section 47(a) of the Act;
- d) to promote the responsible use of pharmaceuticals;
- e) to manage the purchasing of any or all pharmaceuticals, whether used either in a hospital or outside it, on behalf of DHBs;
- f) any other functions given to PHARMAC by or under any enactment or authorised by the Minister.

The policies and criteria set out in the Pharmaceutical Schedule and PHARMAC's Operating Policies and Procedures arise out of, and are designed to help PHARMAC achieve and perform, PHARMAC's objective and functions under the Act.

However PHARMAC may, having regard to its public law obligations, depart from the strict application of those policies and criteria in certain exceptional cases where it considers this necessary or appropriate in the proper exercise of its statutory discretion and to give effect to its objective and functions, particularly with respect to:

- Determining eligibility and criteria for the provision of subsidies; and
- In exceptional circumstances providing for subsidies for the supply of pharmaceuticals not on the Pharmaceutical Schedule.

Decision Criteria

PHARMAC updates the Pharmaceutical Schedule at regular intervals to notify prescribers, pharmacists, hospital managers and patients of changes to Community Pharmaceutical subsidies and the prices for Hospital Pharmaceuticals. In making decisions about amendments to the Pharmaceutical Schedule, PHARMAC is guided by its Operating Policies and Procedures, as amended or supplemented from time to time. PHARMAC takes into account the following criteria when considering proposed amendments to the Schedule:

- a) the health needs of all eligible people within New Zealand;
- b) the particular health needs of Māori and Pacific peoples;
- c) the availability and suitability of existing medicines, therapeutic medical devices and related products and related things;
- d) the clinical benefits and risks of pharmaceuticals;
- e) the cost-effectiveness of meeting health needs by funding pharmaceuticals rather than using other publicly funded health and disability support services;
- f) the budgetary impact (in terms of the pharmaceutical budget and the Government's overall health budget) of any changes to the Schedule;
- g) the direct cost to health service users;
- h) the Government's priorities for health funding, as set out in any objectives notified by the Crown to PHARMAC, or in PHARMAC's Funding Agreement, or elsewhere; and
- i) such other criteria as PHARMAC thinks fit. PHARMAC will carry out appropriate consultation when it intends to take any such "other criteria" into account.

The Operating Policies and Procedures, including any supplements, also describe the way in which PHARMAC determines the level of subsidy or purchase price payable for each Community Pharmaceutical or Hospital Pharmaceutical, respectively. Copies of PHARMAC's Operating Policies and Procedures and of any applicable supplements are available on the PHARMAC website (www.pharmac.govt.nz), or on request.

PHARMAC and Section H of the Pharmaceutical Schedule:

PHARMAC manages the national Pharmaceutical Schedule, which lists:

- Pharmaceuticals available in the community and subsidised by the Government with funding from the Pharmaceutical Budget; and
- some Pharmaceuticals purchased by DHBs for use in their hospitals, and includes those Hospital Pharmaceuticals for which national prices have been negotiated by PHARMAC.

In the community approximately 1848 Pharmaceuticals are subsidised by the Government. Most are available to all eligible people within New Zealand on prescription by a medical doctor. Some are listed with guidelines or conditions such as 'only if prescribed for a dialysis patient' or 'Special Authority - Retail Pharmacy', to ensure that Pharmaceuticals are used by those people who are most likely to benefit from them. Pharmaceuticals provided to patients for use while in DHB Hospitals are not covered by Sections A to G of the Pharmaceutical Schedule.

Section H of the Pharmaceutical Schedule is not a comprehensive list of pharmaceuticals that are used within DHB Hospitals.

Section H of the Pharmaceutical Schedule includes Pharmaceuticals that can be purchased at a national price by DHBs for use in their hospitals. These are referred to as National Contract Pharmaceuticals.

Section H of the Pharmaceutical Schedule also identifies Pharmaceutical Cancer Treatments that DHBs have been directed to fund for use in their hospitals and/or in association with services provided in their hospitals, as well as new Pharmaceuticals used in hospitals, which have been or are being assessed by PHARMAC, the results of that analysis being available to DHB Hospitals via PHARMAC's website.

A list of Discretionary Community Supply Pharmaceuticals, in Section H of the Pharmaceutical Schedule, identifies those products that currently are not subsidised from the Pharmaceutical Budget as Community Pharmaceuticals in Sections A to G of the Pharmaceutical Schedule but which DHBs can at their discretion fund for use in the community from their own budgets without specific Hospital Exceptional Circumstances approval.

The PHARMAC Hospital Team

Steffan Crausaz Manager, Funding and Procurement
Andrew Davies Procurement Initiatives Manager
Katie Appleby Hospital Exceptional Circumstances Panel Co-ordinator

PHARMAC's clinical advisors

Pharmacology and Therapeutics Advisory Committee (PTAC)

PHARMAC works closely with the Pharmacology and Therapeutics Advisory Committee (PTAC), an expert medical committee which provides independent advice to PHARMAC on health needs and the clinical benefits of particular pharmaceuticals for use in the community and/or in DHB Hospitals.

The committee members are all senior, practising clinicians. The chair of PTAC sits with the PHARMAC Board in an advisory capacity.

PTAC helps decide which community pharmaceuticals are to be subsidised from public monies by making recommendations to PHARMAC. Part of the role of PTAC is to review whether Community Pharmaceuticals already listed on the Schedule should continue to receive Government funds. The resources freed up can be used to subsidise other Community Pharmaceuticals with a greater therapeutic worth.

PHARMAC may obtain clinical advice from PTAC in relation to national purchasing strategies for Hospital Pharmaceuticals. There may be additional specialist hospital representatives on PTAC subcommittees, or additional PTAC subcommittees, where PHARMAC considers this necessary.

PTAC members are:

Carl Burgess	MBChB, MD, MRCP (UK), FRACP, FRCP, physician/clinical pharmacologist, Chair
Christine Cameron	MBChB, FRACP, MClIn Pharm
Melissa Copland	PhD, BPharm(Hons), RegPharmNZ, FNZCP
Stuart Dalziel	MBChB, PhD, FRACP
Ian Hosford	MBChB, FRANZCP, psychiatrist
Sisira Jayathissa	MMedSc (Clin Epi), MMBS, MD, MRCP (UK), FRCP (Edin), FRACP, FAFPHM, Dip Clin Epi, Dip OHP, Dip HSM, MBS
George Laking	PhD, MD, FRACP
Jim Lello	BHB, MBChB, DCH, FRNZCGP, general practitioner
Dee Mangin	MBChB, DPH, RNZCGP
Graham Mills	MBChB, MTropHlth, MD, FRACP, infectious disease specialist and general physician
Mark Weatherall	BA, MBChB, MAppStats, FRACP
Howard Wilson	BSc, PhD, MB, BS, Dip Obst, FRNZCGP, FRAGCP Deputy Chair

Contact PTAC C/-Advisory Committee Manager, Pharmaceutical Management Agency, PO Box 10 254, WELLINGTON 6143,
Email: PTAC@pharmac.govt.nz

Hospital Pharmaceuticals Subcommittee of PTAC

The Hospital Pharmaceuticals Subcommittee of PTAC is a subcommittee made up of representatives from DHB hospitals to provide PTAC and PHARMAC with advice in relation to our role in relation to hospital pharmaceuticals. The PHARMAC Board has appointed the following members to the Hospital Pharmaceuticals Subcommittee of PTAC:

Prof. Carl Burgess	Clinical Pharmacologist	Wellington
Assoc. Prof. Mark Weatherall	Physician	Wellington
Dr Matthew Dawes	Clinical Pharmacologist	Auckland
Dr Andrew Stanley	Respiratory Physician	Rotorua
Dr Andrew Herbert	Gastroenterologist	Palmerston North
Prof. Murray Barclay	Clinical Pharmacologist	Christchurch
Dr Paul Tomlinson	Paediatrician	Invercargill
Sarah Fitt	Pharmacist	Auckland
Marilyn Crawley	Pharmacist	Auckland
Jan Goddard	Pharmacist	Hamilton
Billy Allen	Pharmacist	Hastings
Chris Jay	Pharmacist	Wellington

Purpose of the Pharmaceutical Schedule

The purpose of the Schedule is to list:

- the Community Pharmaceuticals that are subsidised by the Government and to show the amount of the subsidy paid to contractors, as well as the manufacturer's price and any access conditions that may apply; and
- some Hospital Pharmaceuticals that are purchased and used by DHB Hospitals, including those for which national prices have been negotiated by PHARMAC.

The purpose of the Schedule is not to show the final cost to Government of subsidising each Community Pharmaceutical or to DHBs in purchasing each Hospital Pharmaceutical since that will depend on any rebate and other arrangements PHARMAC has with the supplier and, for some Hospital Pharmaceuticals, on any logistics arrangements put in place by individual DHB Hospitals.

Finding Information in the Pharmaceutical Schedule

Community Pharmaceuticals

For Community Pharmaceuticals, the Schedule is organised in a way to help the reader find Community Pharmaceuticals, which may be used to treat similar conditions. To do this, Community Pharmaceuticals are first classified anatomically, originally based on the Anatomical Therapeutic Chemical (ATC) system, and then further classified under section headings structured for the New Zealand medical system.

- Section **A** lists the General Rules in relation to Community Pharmaceuticals and related products.
- Section **B** lists Community Pharmaceuticals and related products by anatomical classification, which are further divided into one or more therapeutic headings. Community Pharmaceuticals used to treat similar conditions are grouped together.
- Section **C** lists the rules in relation to Extemporaneously Compounded Products (ECPs) and Community Pharmaceuticals that will be subsidised when extemporaneously compounded.
- Section **D** lists the rules in relation to Special Foods and the Special Foods that are subsidised.
- Section **E** Part I lists the Community Pharmaceuticals that are subsidised on a Practitioner's Supply Order (PSO) and Wholesale Supply Order (WSO).
- Section **E** Part II lists rural areas for the purpose of PSOs.
- Section **F** lists the Community Pharmaceuticals dispensing period exemptions.
- Section **G** lists the Community Pharmaceuticals eligible for reimbursement of safety cap and related rules.

The listings are displayed alphabetically (where practical) within each level of the classification system. Each anatomical section contains a series of therapeutic headings, some of which may contain a further classification level. Where a Community Pharmaceutical is used in more than one therapeutic area, they may be cross-referenced.

The therapeutic headings in the Pharmaceutical Schedule do not necessarily correspond to the therapeutic groups and therapeutic subgroups, which PHARMAC establishes for the separate purpose of determining the level of subsidy to be paid for each Community Pharmaceutical.

The index located at the back of the book in which Sections A-G of the Pharmaceutical Schedule are published can be used to find page numbers for generic chemical entities, or product brand names.

Hospital Pharmaceuticals

Section **H** lists Pharmaceuticals that DHBs fund from their own budgets. The Hospital Pharmaceuticals are grouped into the following Parts in Section H:

- Part I lists the rules in relation to Hospital Pharmaceuticals.
- Part II lists Hospital Pharmaceuticals for which national contracts exist (National Contract Pharmaceuticals). These are listed alphabetically by generic chemical entity name and line item, the relevant Price negotiated by PHARMAC and, if applicable, an indication of whether it has Hospital Supply Status (HSS) and any associated DV Limit.
- Part III lists Discretionary Community Supply Pharmaceuticals, which are not Community Pharmaceuticals, but which a DHB Hospital can, in its discretion, fund for use in the community from its own budget.

The index located at the back of the Section H can be used to find page numbers for generic chemical entities, or product brand names, for Hospital Pharmaceuticals.

Explaining Hospital Pharmaceutical Entries

Section H of the Pharmaceutical Schedule lists National Contract Pharmaceuticals and Discretionary Community Supply Pharmaceuticals that are available to be purchased by DHBs. Where applicable, the listing of the Hospital Pharmaceutical may have an indication of whether it has HSS (if the brand name is in **bold**), its Price and any associated DV Limit.

Example

Pharmaceuticals Under National Contracts			
	Price (ex man. excl GST) \$	Per	Brand or Generic Manufacturer
Generic name listed alphabetically			
	10.00	100	Brand A Brand B
From 1 January 2010 to 30 June 2012, at least 99% of the total volume of this item purchased must be Brand C	15.00	50	Brand C
	18.00	250 ml	Brand D
Form and strength			
	26.53	100	Brand E

Products with Hospital Supply Status (HSS) are in **bold**
Expiry date of HSS period is 30 June of the year indicated unless otherwise stated.

In the case of presentation B, Brand C is the Pharmaceutical with HSS. While the price indicated applies from the date on which it was listed, it does not have HSS until the date indicated in the DV Limit. The 1% DV Limit means that at least 99% of the total volume of all brands of that presentation purchased by DHB Hospitals from the date HSS effective indicated must be the HSS brand. Subject to clause 4 of the General Rules for Hospital Pharmaceuticals, DHB Hospitals may only purchase up to the DV Limit of other brands.

The brand E of Presentation D, does not have HSS or any DV Limit. Accordingly, DHB Hospitals are able to buy that brand at the listed Price if they choose, but may also buy any other brand of the presentation in any quantity required, at whatever price the DHB Hospital negotiates with the relevant supplier.

Glossary

Units of Measure

gram	g	microgram.....	µg	millimole.....	mmol
kilogram	kg	milligram	mg	unit.....	u
international unit.....	iu	millilitre.....	ml

Emulsion.....	Emul	Ointment.....	Oint		
Enteric Coated.....	EC	Sachet	Sach		
Gelatinous	Gel	Solution.....	Soln		

HSS Hospital Supply Status, the status of being the brand of the relevant Hospital Pharmaceutical listed in Section H Part II as HSS, that DHBs are obliged to purchase subject to any DV Limit for that Hospital Pharmaceutical for the period of hospital supply, as awarded under an agreement between PHARMAC and the relevant pharmaceutical supplier.

s29 This medicine is an unapproved medication supplied under Section 29 of the Medicines Act 1981. Practitioners prescribing this medication should:

- a) be aware of and comply with their obligations under Section 29 of the Medicines Act 1981 and otherwise under that Act and the Medicines Regulations 1984;
- b) be aware of and comply with their obligations under the Health and disability Commissioner's Code of Consumer Rights, including the requirement to obtain informed consent from the patient (PHARMAC recommends that Practitioners obtain written consent); and
- c) exercise their own skill, judgement, expertise and discretions, and make their own prescribing decisions with respect to the use of an unapproved Pharmaceutical or a Pharmaceutical for an indication for which it is not approved.

Note: Where medicines supplied under Section 29 that are used for emergency situations, patient details required under Section 29 of the Medicines Act may be retrospectively provided to the supplier.

Hospital Pharmaceutical and Pharmaceutical Cancer Treatment Costs

The cost of purchasing Hospital Pharmaceuticals and Pharmaceutical Cancer Treatments (for use in DHB hospitals and/or in association with Outpatient services provided in DHB hospitals) is met by the Funder (in particular, the relevant DHB) from its own budget. As required by section 23(7) of the Act, in performing any of their functions in relation to the supply of Pharmaceuticals, including Pharmaceutical Cancer Treatments, DHBs must not act inconsistently with the Pharmaceutical Schedule.

PHARMAC website

Information about PHARMAC is available on its website at <http://www.pharmac.govt.nz>. The website includes copies of the Annual Review, Annual Report and Annual Plan, as well as information such as the Pharmaceutical Schedule, Pharmaceutical Schedule Updates, other publications and recent press releases.

Copies of the February 2002 *National Hospital Pharmaceutical Strategy* can be found on the website.

Also, for details about hospital pharmaceuticals that have been assessed by PHARMAC and further information about assessments undertaken by DHB Hospitals, please refer to <http://www.pharmac.govt.nz/hpad>

Exceptional Circumstances policies

The purpose of the Exceptional Circumstances policies are to provide:

- funding from the Community Exceptional Circumstances budget for medication, to be used in the community, in circumstances where the provision of a funded community medication is appropriate, but funding from the Pharmaceutical Budget is not able to be provided through the Pharmaceutical Schedule ("Community Exceptional Circumstances"); or
- an assessment process for DHB Hospitals to determine whether they can fund medication, to be used in the community, in circumstances where the medication is neither a Community Pharmaceutical nor a Discretionary Community Supply Pharmaceutical and where the patient does not meet the criteria for Community Exceptional Circumstances ("Hospital Exceptional Circumstances"); or
- an assessment process for DHB Hospitals to determine whether they can fund pharmaceuticals for the treatment of cancer in their DHB Hospital, or in association with Outpatient services provided in their DHB Hospital, in circumstances where the pharmaceutical is not identified as a Pharmaceutical Cancer Treatment ("Cancer Exceptional Circumstances") in Sections A-H of the Pharmaceutical Schedule.

Upon receipt of an application for approval for Community Exceptional Circumstances or Hospital Exceptional Circumstances, the Exceptional Circumstances Panel first decides whether an application will be assessed initially under the Community Exceptional Circumstances criteria or the Hospital Exceptional Circumstances criteria. Cancer Exceptional Circumstances is a separate process.

Hospital Exceptional Circumstances (HEC)

If the application is first assessed but not approved under the Community Exceptional Circumstances criteria, the Exceptional Circumstances Panel may recommend the funding of the pharmaceutical for use in the community by a specific patient from a DHB Hospital's own budget under Hospital Exceptional Circumstances.

If the application is first assessed under the Hospital Exceptional Circumstances criteria, the Exceptional Circumstances Panel may:

- a) recommend against the funding of the pharmaceutical for use in the community by a specific patient from a DHB Hospital's own budget, in which case a DHB Hospital must not fund the pharmaceutical from its own budget;
- b) recommend the funding of the pharmaceutical for use in the community by a specific patient from a DHB Hospital's own budget under Hospital Exceptional Circumstances, in which case a DHB Hospital may, but is not obliged to, fund the pharmaceutical from its own budget;
- c) defer its decision until further assessment under the Community Exceptional Circumstances criteria can be undertaken; or
- d) recommend interim funding of the pharmaceutical for use in the community by a specific patient from a DHB Hospital's own budget under Hospital Exceptional Circumstances until further assessment under the Community Exceptional Circumstances criteria can be undertaken.

Permission to fund a pharmaceutical for use in the community by a specific patient from a DHB Hospital's own budget under Hospital Exceptional Circumstances will only be granted by PHARMAC where it has been demonstrated that such funding is cost-effective for the relevant DHB in the region in which the patient resides.

If the patient being treated with a pharmaceutical under Hospital Exceptional Circumstances usually resides in a district other than that within the jurisdiction of the DHB initiating the treatment, then the DHB initiating the treatment must either agree to fund any on-going treatment required once the patient has returned to his/her usual DHB, or obtain written consent from the DHB or DHBs in which the patient will reside following the commencement of treatment.

Community Exceptional Circumstances (CEC)

In order to qualify for Community Exceptional Circumstances approval one of the following entry criteria must be met:

- a) the condition must be rare; *or*
- b) the reaction to alternative funded treatment must be unusual; *or*
- c) an unusual combination of circumstances applies.

Rare and unusual are considered to be in the order of less than 10 people nationally.

Where one of the above Community Exceptional Circumstances entry criteria is met, the application may then be further examined under supplementary criteria, assessing suitability of the pharmaceutical, clinical benefit, the cost effectiveness of the treatment, and the patient's ability to pay for the treatment. Where these documented criteria are met, a subsidy sufficient to fully fund the pharmaceutical will be made available to the specific patient on whose behalf the application was made.

Community Exceptional Circumstances funding is only available where the criteria are met and is not available for financial reasons alone.

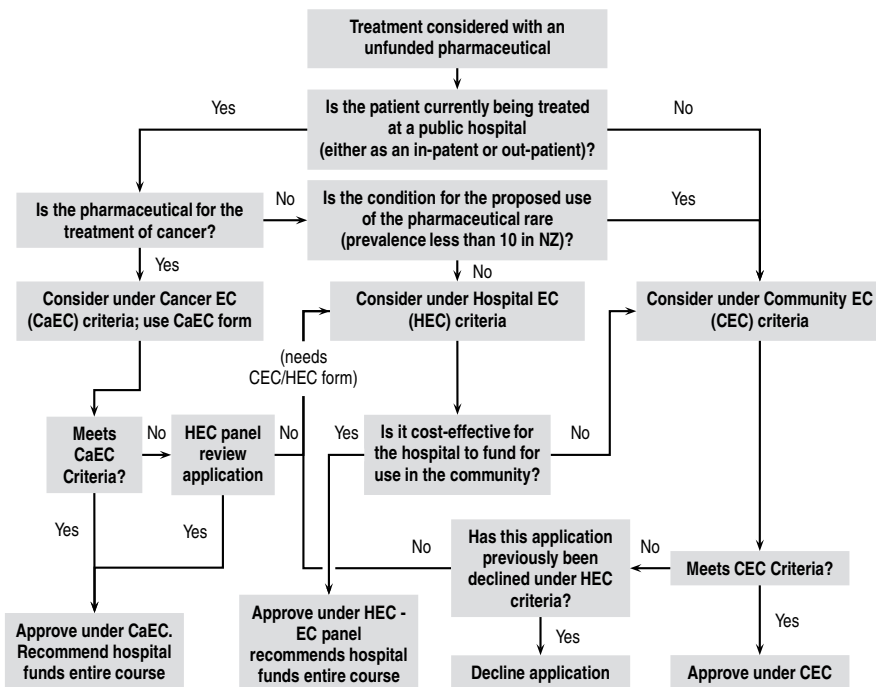

Cancer Exceptional Circumstances (CaEC)

Permission to fund a pharmaceutical for the treatment of cancer from the Hospital's own budget under Cancer Exceptional Circumstances will only be granted by PHARMAC where it has been demonstrated that the proposed use meets the criteria.

If the patient being treated with a pharmaceutical under Cancer Exceptional Circumstances usually resides in a district other than that within the jurisdiction of the DHB initiating the treatment, then the DHB initiating the treatment must either agree to fund any on-going treatment required once the patient has returned to his/her usual DHB, or obtain written consent from the DHB or DHBs in which the patient will reside following the commencement of treatment.

Applications for Community Exceptional Circumstances, Hospital Exceptional Circumstances and Cancer Exceptional Circumstances should be made on the standard application form available from the PHARMAC website www.pharmac.govt.nz or the address below:

INTRODUCTION

Section H contains general rules that apply, and other information relating, to Hospital Pharmaceuticals.

The amounts payable by a DHB to the relevant pharmaceutical supplier are based on the contractual arrangements between PHARMAC and the relevant pharmaceutical supplier for a national price for that National Contract Pharmaceutical.

The Pharmaceutical Schedule shows the national price at which the National Contract Pharmaceutical can be purchased by DHBs, providers of logistics services, wholesalers or other such distributors, or Contract Manufacturers directly from the pharmaceutical supplier. As required by section 23(7) of the Act, in performing any of its functions in relation to the supply of Pharmaceuticals, DHBs must not act inconsistently with the Schedule.

1 Interpretation and Definitions

1.1 In this Schedule, unless the context otherwise requires:

“**Act**” means the New Zealand Public Health and Disability Act 2000.

“**Cancer Exceptional Circumstances**” means the policies and criteria administered by PHARMAC relating to the ability to fund, from a DHB hospital’s own budget, pharmaceuticals for the treatment of cancer that are not identified as Pharmaceutical Cancer Treatments in Sections A-H of the Pharmaceutical Schedule.

“**Community Exceptional Circumstances**” means the policies and criteria administered by the Exceptional Circumstances Panel relating to funding from the Community Exceptional Circumstances budget for medication, to be used in the community, in circumstances where the provision of a funded community medication is appropriate, but funding from the Pharmaceutical Budget is not able to be provided through the Pharmaceutical Schedule.

“**Community Pharmaceutical**” means a Pharmaceutical listed in Sections A to G of the Pharmaceutical Schedule that is subsidised by the Funder from the Pharmaceutical Budget for use in the community.

“**Contract Manufacturer**” means a manufacturer or a supplier that is a party to a contract with the relevant DHB Hospital to compound Hospital Pharmaceuticals, on request from that DHB Hospital.

“**Designated Delivery Point**” means at a DHB Hospital’s discretion:

- a) a delivery point agreed between a pharmaceutical supplier and the relevant DHB Hospital, to which delivery point that pharmaceutical supplier must supply the Pharmaceutical directly at the Price; and/or
- b) any delivery point designated by the relevant DHB Hospital or PHARMAC, such delivery point being within 30 km of the relevant pharmaceutical supplier’s national distribution centre.

“**DHB**” means an organisation established as a District Health Board by or under Section 19 of the Act.

“**DHB Hospital**” means a DHB, including its hospital or associated provider unit that the DHB purchases Hospital Pharmaceuticals for.

“**Discretionary Community Supply Pharmaceutical**” means the list of Pharmaceuticals set out in Section H Part III of the Schedule, which may be funded by a DHB Hospital from its own budget for use in the community.

“**DV Limit**” means, for a particular Hospital Pharmaceutical with HSS, the National DV Limit or the Individual DV Limit.

“**DV Pharmaceutical**” means a discretionary variance Pharmaceutical that does not have HSS but is used in place of one that does. Usually this means it is the same chemical entity, at the same strength, and in the same or a similar presentation or form, as the relevant Hospital Pharmaceutical with HSS. Where this is not the case, a note will be included with the listing of the HSS pharmaceutical.

“**Exceptional Circumstances Panel**” means the panel of clinicians, appointed by the PHARMAC Board, that is responsible for administering policies in relation to Community Exceptional Circumstances and Hospital Exceptional Circumstances.

“**Funder**” means the body or bodies responsible, pursuant to the Act, for the funding of Pharmaceuticals listed on the Schedule (which may be one or more DHBs and/or the Ministry of Health) and their successors.

“**GST**” means goods and services tax under the Goods and Services Tax Act 1985.

“**Hospital Exceptional Circumstances**” means the policies and criteria administered by the Exceptional Circumstances Panel relating to the ability to fund, from a DHB Hospital’s own budget, pharmaceuticals for use in the community by a specific patient where a subsidy is not available from the Pharmaceutical Budget or under Community Exceptional Circumstances.

“**Hospital Pharmaceuticals**” means National Contract Pharmaceuticals, DV Pharmaceuticals and Discretionary Community Supply Pharmaceuticals.

“**HSS**” means hospital supply status, the status of being the brand of the relevant Hospital Pharmaceutical listed in Section H Part II as HSS, that DHBs are obliged to purchase subject to any DV Limit for that Hospital Pharmaceutical for the period of hospital supply, as awarded under an agreement between PHARMAC and the relevant pharmaceutical supplier. Pharmaceuticals with HSS are listed in Section H Part II in bold text.

“**Individual DV Limit**” means, for a particular Hospital Pharmaceutical with HSS and a particular DHB Hospital, the dis-

cretionary variance limit, being the specified percentage of that DHB Hospital's Total Market Volume up to which that DHB Hospital may purchase DV Pharmaceuticals of that Hospital Pharmaceutical.

"National Contract Pharmaceutical" means a Hospital Pharmaceutical for which PHARMAC has negotiated a national contract and the Price.

"National DV Limit" means, for a particular Hospital Pharmaceutical with HSS, the discretionary variance limit, being the specified percentage of the Total Market Volume up to which all DHB Hospitals may collectively purchase DV Pharmaceuticals of that Hospital Pharmaceutical.

"Outpatient" in relation to a Community Pharmaceutical, means a person who, as part of treatment at a hospital or other institution under the control of a DHB, is prescribed the Community Pharmaceutical for consumption or use in the person's home.

"PHARMAC" means the Pharmaceutical Management Agency established by Section 46 of the Act (PHARMAC).

"Pharmacode" means the six or seven digit identifier assigned to a Pharmaceutical and notified to a pharmaceutical supplier by the Pharmacy Guild.

"Pharmaceutical" means a medicine, therapeutic medical device, or related product or related thing listed in Sections B to H of the Schedule.

"Pharmaceutical Budget" means the pharmaceutical budget set for PHARMAC by the Crown for the subsidised supply of Community Pharmaceuticals.

"Pharmaceutical Cancer Treatments" means Pharmaceuticals for the treatment of cancer, listed in Sections A to G of the Schedule and identified therein as a "PCT" or "PCT only" Pharmaceuticals that DHBs must fund, from their own budgets, for use in their hospitals, and/or in association with Outpatient services provided in their DHB Hospitals, in relation to the treatment of cancers.

"Price" means the standard national price, and, unless agreed otherwise between PHARMAC and the pharmaceutical supplier, includes any costs associated with the supply of a National Contract Pharmaceutical listed in Section H Part II of the Pharmaceutical Schedule to, at a DHB Hospital's discretion, any Designated Delivery Point, or to a Contract Manufacturer (expressly for the purpose of compounding).

"Schedule" means this Pharmaceutical Schedule and all its sections and appendices.

"Section B" of this Pharmaceutical Schedule means the list of Community Pharmaceuticals eligible for Subsidies included in the Schedule.

"Section C" of this Pharmaceutical Schedule means the list of community extemporaneously compounded preparations and galenicals eligible for Subsidies included in the Schedule.

"Section D" of this Pharmaceutical Schedule means the list of community special foods eligible for Subsidies included in the Schedule.

"Section E Part I" of this Pharmaceutical Schedule means the list of Community Pharmaceuticals eligible for Subsidies and available on a Practitioner's Supply Order or a Wholesale Supply Order included in the Schedule.

"Section E Part II" of this Pharmaceutical Schedule means the list of remote areas for the purpose of community Practitioner's Supply Orders included in the Schedule.

"Section F Part I" of this Pharmaceutical Schedule means the part of Section F relating to the exemption from dispensing in Monthly Lots, and requirement to dispense in 90 Day Lots in respect of the Community Pharmaceuticals referred to in this part of Section F.

"Section F Part II" of this Pharmaceutical Schedule means the part of Section F relating to the exemption from dispensing in Monthly Lots in respect of the Community Pharmaceuticals referred to in this part of Section F.

"Section G" of this Pharmaceutical Schedule means the list of Community Pharmaceuticals eligible for reimbursement of safety cap.

"Section H" of this Pharmaceutical Schedule means the general rules for Hospital Pharmaceuticals and the lists of National Contract Pharmaceuticals and any associated DV Limits and Discretionary Community Supply Pharmaceuticals included in Section H of the Schedule.

"Section H Part I" of this Pharmaceutical Schedule means the general rules for Hospital Pharmaceuticals.

"Section H Part II" of this Pharmaceutical Schedule means the list of National Contract Pharmaceuticals, the relevant Price, an indication of whether the Pharmaceutical has HSS and any associated DV Limit.

"Section H Part III" of this Pharmaceutical Schedule means the list of Discretionary Community Supply Pharmaceuticals.

"Total Market Volume" means, for a particular Hospital Pharmaceutical with HSS in any given period, in accordance with the data available to PHARMAC, the sum of:

- a) the total number of Units of the relevant Hospital Pharmaceutical with HSS purchased by all DHB Hospitals, or by a particular DHB Hospital in the case of the Individual DV Limit; and

Part I: General Rules for Hospital Pharmaceuticals

- b) the total number of Units of all the relevant DV Pharmaceuticals purchased by all DHB Hospitals, or by a particular DHB Hospital in the case of the Individual DV Limit.

“Unit” means an individual unit of a Pharmaceutical (e.g. tablet, 1 ml of an oral liquid, amp, syringe).

“Unapproved Indication” means, for a Pharmaceutical, an indication for which it is not approved under the Medicines Act 1981. Practitioners prescribing Pharmaceuticals for Unapproved Indications should be aware of, and comply with, their obligations under Section 25 and/or Section 29 of the Medicines Act 1981 and as set out in Part I: General Rules for Hospital Pharmaceuticals, rule 9.

- 1.2 In addition to the above interpretations and definitions, unless the content requires otherwise, a reference in the Schedule to:

- a) the singular includes the plural; and
- b) any legislation includes a modification and re-enactment of, legislation enacted in substitution for, and a regulation, Order in Council, and other instrument from time to time issued or made under, that legislation, where that legislation, regulation, Order in Council or other instrument has an effect on the prescribing, dispensing or subsidising of Pharmaceuticals.

2 Current Hospital Pharmaceutical Contracts

- 2.1 A DHB Hospital may enter into a contract for the purchase of any Pharmaceutical that is not a National Contract Pharmaceutical, provided that such contract:

- a) does not oblige the relevant DHB Hospital to purchase a volume of that Pharmaceutical, if that Pharmaceutical is a DV Pharmaceutical, that is greater than the relevant DV Limit;
- b) enables PHARMAC to access and use future price and volume data in respect of that Pharmaceutical; and
- c) enables the relevant DHB Hospital to terminate the contract or relevant parts of the contract in order to give full effect to the national contract on 3 months' written notice to the pharmaceutical supplier.

- 2.2 From the day after a DHB Hospital's current supply contract for a chemical entity that is a National Contract Pharmaceutical expires, that DHB Hospital is to purchase the relevant National Contract Pharmaceutical listed in Section H Part II at the Price, and is to comply with the DV Limits for the National Contract Pharmaceutical where it has HSS.

- 2.3 Following written notification from PHARMAC that a Pharmaceutical is a National Contract Pharmaceutical, either through Section H updates or otherwise, DHB Hospitals are to take any steps available to them to terminate current contracts, and are not to enter into any new contracts or extend the period of any current contracts, for the supply of that National Contract Pharmaceutical listed in Section H Part II or the relevant chemical entity, unless PHARMAC expressly notifies otherwise.

3 National Contract Pharmaceutical Price

- 3.1 DHB Hospitals must take all necessary steps to enable any contracts between PHARMAC and a pharmaceutical supplier in relation to National Contract Pharmaceuticals to be given full effect.

- 3.2 National Contract Pharmaceuticals that can be purchased by DHBs at the relevant Price, as agreed between PHARMAC and the relevant pharmaceutical supplier, are hereby deemed to include every medicine, therapeutic medical device, or related product or related thing listed in Section H Part II of the Schedule except DV Pharmaceuticals.

- 3.3 A National Contract Pharmaceutical is to be made available by the relevant pharmaceutical supplier for purchase at the relevant Price by any or all of the following:

- a) DHB Hospitals at Designated Delivery Points; and/or
- b) Contract Manufacturers (expressly for the purpose of compounding).

4 Hospital Supply Status (HSS)

- 4.1 The DV Limit for any National Contract Pharmaceutical which has HSS is set out beside the listing of the relevant National Contract Pharmaceutical in Section H Part II of the Schedule and may be amended from time to time.

- 4.2 If a National Contract Pharmaceutical is listed in Section H Part II as having HSS, DHB Hospitals:

- a) are expected to use up any existing stocks of DV Pharmaceuticals during the First Transition Period;
- b) must not purchase DV Pharmaceuticals in volumes exceeding their usual requirements, or in volumes exceeding those which they reasonably expect to use, within the First Transition Period; and
- c) must purchase the Hospital Pharmaceutical with HSS except:
 - i) to the extent that the DHB Hospital may use its discretion to purchase a DV Pharmaceutical within the DV Limit, provided that (subject to subclause (iii) below) the DV Limit has not been exceeded nationally;
 - ii) if the pharmaceutical supplier fails to supply that Hospital Pharmaceutical, in which case the relevant DHB Hospital does not have to comply with the DV Limit for that Hospital Pharmaceutical during that period of non-supply (and any such month(s) included in a period of non-supply will be excluded in any review of the DV Limit in accordance with clause 4.3 below);

iii) that where the DV Limit has been exceeded nationally, the DHB Hospital may negotiate with the pharmaceutical supplier who supplies the National Contract Pharmaceutical with HSS for written permission to vary the application of that DHB Hospital's Individual DV Limit for any patient whose exceptional needs require a DV Pharmaceutical.

- 4.3 PHARMAC may, in its discretion, for any period or part period:
- review usage by DHB Hospitals of the National Contract Pharmaceutical and DV Pharmaceuticals to determine whether the DV Limit has been exceeded; and
 - audit compliance by DHBs with the DV Limits and related requirements.
- 4.4 PHARMAC will address any issues of non-compliance by any individual DHB with a DV Limit by:
- obtaining the relevant DHB's assurance that it will comply with the DV Limit for that National Contract Pharmaceutical with HSS in the remainder of the applicable period and any subsequent periods; and
 - informing the relevant supplier of the HSS Pharmaceutical of any individual DHB's non-compliance with the DV Limit for that HSS Pharmaceutical.
- 4.5 In addition to the steps taken by PHARMAC under clause 4.4 above to address any issues of non-compliance by any individual DHB with a DV Limit, the relevant pharmaceutical supplier may require, in its discretion, financial compensation from the relevant DHB:
- an amount representing its contribution towards exceeding the DV Limit (where PHARMAC is able to quantify this based on the information available to it); or
 - the sum of \$1,000 or \$5,000 (depending on the terms of the applicable national contract applying to the HSS Pharmaceutical),

whichever is the greater as between sub-paragraphs (a) and (b) within the number of business days specified in the notice requiring such payment to be made.

5 Collection of rebates and payment of financial compensation

- 5.1 Following the receipt of any rebates from a pharmaceutical supplier in respect of a particular Hospital Pharmaceutical, PHARMAC will notify each relevant DHB and DHB Hospital of the amount of the rebate owing to it, being a portion of the total rebate determined by PHARMAC on the basis of that DHB Hospital's usage of that Hospital Pharmaceutical, where this is able to be determined. Where data to determine individual DHB Hospitals' usage is not available, PHARMAC will apportion rebates on the basis of an alternative method agreed between the relevant DHBs and PHARMAC.
- 5.2 PHARMAC will pay each DHB Hospital the rebate amounts (if any) owing to it, no less frequently than once each calendar quarter in respect of rebates received quarterly (or more often).

6 Price and Volume Data

- 6.1 DHB Hospitals are to provide to PHARMAC, on a monthly basis in accordance with PHARMAC's requirements, any volume data and, unless it would result in a breach of an existing contract, price data held by those DHB Hospitals in respect of any Hospital Pharmaceuticals listed in Section H of the Schedule.
- 6.2 All price and volume data provided to PHARMAC under clause 6.1 above should identify the relevant Hospital Pharmaceutical by using a Pharmacode or some other unique numerical identifier, and the date (month and year) on which the DHB Hospital incurred a cost for the purchase of that Pharmaceutical. Volume is to be measured in units (that being the smallest possible whole unit – e.g. a capsule, a vial, a millilitre etc).

7 Discretionary Community Supply Pharmaceuticals

- 7.1 Discretionary Community Supply Pharmaceuticals are deemed to include every medicine, therapeutic medical device, or related product or related thing listed in Section H Part III of the Schedule.
- 7.2 PHARMAC may, in its discretion, list any pharmaceutical that is not a Community Pharmaceutical as a Discretionary Community Supply Pharmaceutical, including a pharmaceutical that PHARMAC is made aware of by HPAC, the Exceptional Circumstances Panel, a DHB Hospital or relevant hospital personnel.
- 7.3 A DHB Hospital may use its discretion to purchase Discretionary Community Supply Pharmaceuticals for use in the community, provided that, if the patient being treated with a Discretionary Community Supply Pharmaceutical usually resides in a district other than that within the jurisdiction of the DHB initiating the treatment, then the DHB initiating the treatment must either agree to fund any on-going treatment required once the patient has returned to his/her usual DHB, or obtain written consent from the DHB or DHBs in which the patient will reside following the commencement of treatment.
- 7.4 The funding of a Discretionary Community Supply Pharmaceutical for use in the community will be sourced from the relevant DHB's own budget. For the avoidance of doubt, the Discretionary Community Supply Pharmaceutical is not a Community Pharmaceutical and funding is not available for Discretionary Community Supply Pharmaceuticals from

Part I: General Rules for Hospital Pharmaceuticals

the Pharmaceutical Budget.

- 7.5 Subject to rule 7.6, DHB Hospitals must not fund for use in the community, any pharmaceuticals that are not Discretionary Community Supply Pharmaceuticals unless they have been approved under Hospital Exceptional Circumstances.
- 7.6 DHB Hospitals may fund from their own budgets, any Pharmaceutical that is listed in Sections A-G of the Pharmaceutical Schedule without Hospital Exceptional Circumstances (HEC) approval provided that:
- a)
 - i) up to 5 days treatment, or one original pack, (where inappropriate to provide less); or
 - ii) more than 5 days treatment, provided that the relevant DHB Hospital has a dispensing for discharge policy and the quantity supplied is in accordance with that policy; and
 - b) the Pharmaceutical is supplied consistent with any restrictions applying to that Pharmaceutical in Section A-G of the Pharmaceutical Schedule.

Note dispensing for discharge as described in rule 7.6 is at the discretion of individual DHBs.

8 Pharmaceutical Cancer Treatments

- 8.1 DHBs are obliged to fund Pharmaceutical Cancer Treatments in accordance with the October 2001 direction from the Minister of Health.
- 8.2 The list of Pharmaceutical Cancer Treatments may be amended from time to time. Additions and/or amendments to the list require the approval of the PHARMAC Board.
- 8.3 Pharmaceutical Cancer Treatments may be used in combination with each other, including where such combinations result in admixtures or dilutions that differ from those specified.
- 8.4 DHBs must not fund Pharmaceuticals for the treatment of cancer or Pharmaceutical Cancer Treatments for indications related to the treatment of cancer, if they are not listed in Sections A to G of the Pharmaceutical Schedule, unless the unlisted pharmaceutical:
- a) has Cancer Exceptional Circumstances approval; or
 - b) has Community Exceptional Circumstances or Hospital Exceptional Circumstances approval; or
 - c) is being used as part of a *bona fide* clinical trial which has Ethics Committee approval; or
 - d) is being used and funded as part of a paediatric oncology service; or
 - e) was being used to treat the patient in question prior to 1 July 2005.
- 8.5 Some indications for Pharmaceutical Cancer Treatments listed in the Schedule are Unapproved Indications. Some of these formed part of the October 2001 direction from the Minister of Health as to pharmaceuticals and indications for which DHBs must provide funding. As far as reasonably practicable, these Unapproved Indications are marked in the Schedule. However, PHARMAC makes no representation and gives no guarantee as to the accuracy of this information. Practitioners prescribing Pharmaceutical Cancer Treatments for such Unapproved Indications should:
- a) be aware of and comply with their obligations under sections 25 and 29 of the Medicines Act 1981, as applicable, and otherwise under that Act and the Medicines Regulations 1984;
 - b) be aware of and comply with their obligations under the Health and Disability Commissioner's Code of Consumer Rights, including the requirement to obtain informed consent from the patient (PHARMAC recommends that Practitioners obtain written consent); and
 - c) exercise their own skill, judgment, expertise and discretion, and make their own prescribing decisions with respect to the use of an unapproved Pharmaceutical Cancer Treatment or a Pharmaceutical Cancer Treatment for an Unapproved Indication.
- 8.6 Applications to add pharmaceuticals, and add or amend indications for Pharmaceutical Cancer Treatments, may be made in writing by pharmaceutical suppliers and/or clinicians to PHARMAC. Applications should follow *PHARMAC's Guidelines for Submissions to PTAC for New Chemical Entity Pharmaceuticals and Recommended methods to derive clinical inputs for proposals to PHARMAC*, copies of which are available from PHARMAC or PHARMAC's website.
- 8.7 Applications made under clause 8.6 must be assessed by HPAC, PHARMAC, PTAC and/or relevant subcommittees of PTAC.

9 Practitioners prescribing unapproved Pharmaceuticals

Practitioners should, where possible, prescribe Pharmaceuticals that are approved under the Medicines Act 1981. However, the access criteria under which a Pharmaceutical is listed on the Pharmaceutical Schedule may:

- a) in some case, explicitly permit Government funded access to a Pharmaceutical that is not approved under the Medicines Act 1981 or for an Unapproved Indication; or
- b) not explicitly preclude Government funded access to a Pharmaceutical when it is used for an Unapproved Indication.

Accordingly, if Practitioners are planning on prescribing an unapproved Pharmaceutical or a Pharmaceutical for an Unapproved Indication, Practitioners should:

- a) be aware of and comply with their obligations under sections 25 and 29 of the Medicines Act 1981, as applicable, and otherwise under that Act and the Medicines Regulations 1984;
- b) be aware of and comply with their obligations under the Health and Disability Commissioner's Code of Consumer Rights, including the requirement to obtain informed consent from the patient (PHARMAC recommends that Practitioners obtain written consent); and
- c) exercise their own skill, judgment, expertise and discretion, and make their own prescribing decisions with respect to the use of an unapproved Pharmaceutical or a Pharmaceutical for an Unapproved Indication.

Practitioners should be aware that simply by listing a Pharmaceutical on the Pharmaceutical Schedule PHARMAC makes no representations about whether that Pharmaceutical has any form of approval or consent under, or whether the supply or use of the Pharmaceutical otherwise complies with, the Medicines Act 1981. Further, the Pharmaceutical Schedule does not constitute an advertisement, advertising material or a medical advertisement as defined in the Medicines Act or otherwise.

ALBENDAZOLE

Tab 200 mg

Albenza
Zentel

Indefinite supply to cover treatment of hydatid disease, strongyloidiasis, toxocariasis, ancylostomiasis, neurocysticercosis and schistosomiasis (where first line treatment has failed) until EC funding is approved (Section 29)

AMIKACIN SULPHATE

Inj 250 mg per ml, 2 ml

For any indication approved by the hospital service, with review at 6 weeks

AMOXYCILLIN CLAVULANATE

Inj 600 mg

Inj 1.2 g

For any indication approved by the hospital service, with review at 6 weeks

AMPHOTERICIN B

Inj 50 mg

Oral liq 100 mg per ml (non-liposomal only)

Up to 6 weeks supply for any appropriate indication

AZTREONAM

Inj 1 g

For any indication approved by the hospital service, with review at 6 weeks.

BENZATHINE PENICILLIN

Inj 1.2 mega u per 2 ml

For prophylaxis of endocarditis

BENZYL PENICILLIN SODIUM (PENICILLIN G)

Inj 1 mega u

For any indication approved by the hospital service, with review at 8 weeks.

CEFAMANDOLE NAFATE

Inj 500 mg

Inj 1 g

For any indication approved by the hospital service, with review at 8 weeks.

CEFAZOLIN SODIUM

Inj 500 mg

Inj 1 g

For any indication approved by the hospital service, with review at 8 weeks.

CEFEPIME HYDROCHLORIDE

Inj 1 g, 15 ml

Inj 2 g, 77 ml

For any indication approved by the hospital service, with review at 6 weeks.

CEFOTAXIME SODIUM

Inj 500 mg

Inj 1 g

For any indication approved by the hospital service, with review at 6 weeks.

CEFOXITIN SODIUM

Powder for injection 1 g

For any indication approved by the hospital service, with review at 6 weeks.

CEFTAZIDIME

Inj 500 mg

Inj 1 g

Inj 2 g

For any indication approved by the hospital service, with review at 6 weeks.

CEFTRIAXONE SODIUM

Inj 1 g

For any indication approved by the hospital service, with review at 6 weeks.

CEFUROXIME AXETIL

Tab 250 mg

Oral liq 125 mg per 5 ml

Up to 2 weeks supply for any appropriate indication

CEFUROXIME SODIUM

Inj 250 mg

Inj 750 mg

Inj 1.5 g

For any indication approved by the hospital service, with review at 6 weeks.

CHLORHEXIDINE

Eye drops 0.02%

For a period of 3 months for treatment of acanthamoeba keratitis.

CIPROFLOXACIN

Oral liq 5%

Oral liq 10%

Up to 6 weeks supply for any appropriate indication

CLOPIDOGREL

Tab 75 mg

Up to 4 weeks supply post stenting. Not to be funded for acute coronary syndrome or transient ischaemic attacks

CYCLOSPORIN

Cap 25 mg	Gengraf Neoral
Cap 50 mg	Gengraf Neoral
Cap 100 mg	Gengraf Neoral
Oral liq 100 mg per ml	Gengraf Neoral

For aplastic anaemia

DALTEPARIN SODIUM

For the treatment of venous thromboembolism (VTE) for a maximum of 14 days or until a stabilised therapeutic INR is established.

For a maximum treatment period from the time of diagnosis to 8 weeks post partum for a confirmed thromboembolic event during pregnancy.

For prophylaxis of thromboembolism for patients considered high risk after consultation with a specialist from diagnosis of pregnancy to 8 weeks post partum.

For a maximum treatment period from diagnosis of pregnancy to 8 weeks post partum for women normally maintained on long-term oral anticoagulation who are at very high risk of thromboembolism.

For the treatment for a maximum of 7 days pre and post operatively for patients on oral anticoagulants requiring surgical intervention in a public hospital or until an appropriate therapeutic INR level is reached.

For a maximum of 14 days treatment in high-risk patients post pelvic, colo-rectal and major orthopaedic surgery.

For a maximum of 7 days treatment for patients with an acute coronary syndrome (ACS) awaiting further hospital intervention.

For a maximum of 14 days treatment post cardioversion in non anticoagulated patients with atrial fibrillation or until appropriate therapeutic INR level is reached.

For treatment of malignancy - associated venous thromboembolism.

DEMECLOCYCLINE

Cap 150 mg	Ledermycin
------------	------------

Indefinite supply for SIADH (syndrome of inappropriate anti diuretic hormone) (Section 29)

DEXTROSE

Inj 5%, 10 ml

Where required for antibiotic treatment funded under DCS or HEC

ENOXAPARIN SODIUM

Inj 20 mg per 0.2 ml	Clexane
Inj 40 mg per 0.4 ml	Clexane
Inj 60 mg per 0.6 ml	Clexane
Inj 80 mg per 0.8 ml	Clexane
Inj 100 mg per ml	Clexane
Inj 120 mg per 0.8 ml	Clexane
Inj 150 mg per ml	Clexane

For treatment of malignancy - associated venous thromboembolism.

ERTAPENEM SODIUM

Inj 1 g

For any indication approved by the hospital service, with review at 6 weeks.

FILGRASTIM

Inj 300 µg per 0.5 ml prefilled syringe	Neupogen
Inj 300 µg per 1 ml vial	Neupogen
Inj 480 µg per 0.5 ml prefilled syringe	Neupogen

Indefinite supply for any appropriate indication for the management of patients with cancer.

FLUCLOXACILLIN SODIUM

Inj 250 mg
Inj 500 mg
Inj 1 g

For any indication approved by the hospital service, with review at 8 weeks.

FLUCONAZOLE

Inj 100 mg per 50 ml

For any indication approved by the hospital service, with review at 6 weeks.

FORTIFIED EYE DROPS

Up to 4 weeks supply of proprietary eyedrops fortified with any appropriate anti-infective agent for the treatment of severe corneal or eye surface infections

FOSCARNET

Inj 24 mg per ml IV soln

Indefinite supply for any appropriate indication

GANCICLOVIR

Inj 500 mg Cymevene

For prophylaxis and treatment of CMV-associated disease in immunocompromised patients and following organ transplant.

GENTAMICIN SULPHATE

Inj 40 mg per ml, 2 ml

Indefinite supply for any indication approved by the hospital service.

HEPARINISED SALINE

Inj 10 iu per ml, 5 ml
Inj 100 iu per ml, 5 ml

For the maintenance of IV lines

HYDRALAZINE

Tab 25 mg ^{s29}

For patients with congestive heart failure:

- 1) who have not responded to treatment with ACE inhibitors and/or ARBs; or
- 2) in whom treatment with ACE inhibitors and/or ARBs is not tolerated due to renal impairment

HYOSCINE (SCOPOLAMINE)

Patches 1.5 mg Scopoderm
TTS

Up to 6 months supply for symptom control in terminally ill patients

IMIPENEM WITH CILASTATIN

Inj 500 mg with cilastin 500 mg

For any indication approved by the hospital service, with review at 6 weeks.

INDOMETHACIN

Cap 25 mg ^{s29}
Cap 50 mg ^{s29}
Cap long-acting 75 mg ^{s29}

For any indication approved by the hospital service

ITRACONAZOLE

Oral liq 10 mg per ml

Up to 3 months supply for use in liver transplant patients

IVERMECTIN

Tab 6 mg

Indefinite supply for the treatment of filaricides, cutaneous larva migrans (creeping eruption) and Strongyloidiasis (Section 29)

LENOGRASTIM

Inj 13.4 million iu vial Granocyte
Inj 33.6 million iu vial Granocyte

Indefinite supply for any appropriate indication for the management of patients with cancer.

L-ORNITHINE L-ASPARTATE (LOLA) ^{s29}

Sach 5 mg

For patients with chronic hepatic encephalopathy who have not responded to treatment with lactulose

MEROPENEM

Inj 500 mg
Inj 1 g

For any indication approved by the hospital service, with review at 6 weeks.

METHOXSALEN

Cap 10 mg Oxoralen
Tab 10 mg Methoxypsoralen

Indefinite supply for PUVA – psoralen plus ultraviolet a (UVA) therapy for severe, disabling psoriasis prephototherapy.

METOLAZONE ^{s29}

Tab 5 mg

For patients with congestive heart failure:

- 1) who have not responded to treatment with ACE inhibitors and/or ARBs; or
- 2) in whom treatment with ACE inhibitors and/or ARBs is not tolerated due to renal impairment

Discretionary Community Supply Pharmaceuticals

MINOXIDIL

Tab 2.5 mg
Tab 5 mg
Tab 10 mg

Loniten
Loniten
Loniten

Indefinite supply for the treatment of severe hypertension that is resistant to other anti-hypertensives or where alternatives are not tolerated (Section 29)

MOLGRAMOSTIM

Inj 300 µg

Leucomax

Indefinite supply for any appropriate indication for the management of patients with cancer.

NETILMICIN

Inj 150 mg per 1.5 ml

Up to 2 weeks supply for any appropriate indication (extension for up to 6 weeks supply for endocarditis should be applied for under Hospital EC)

NIMODIPINE

Tab 30 mg

Up to 21 days supply post sub-arachnoid haemorrhage

ONDANSETRON

Tab 4 mg

Dr Reddy's
Ondansetron

Zofran

Tab 8 mg

Dr Reddy's
Ondansetron

Zofran

Tab dispersible 4 mg

Dr Reddy's
Ondansetron

Zofran

Tab dispersible 8 mg

Dr Reddy's
Ondansetron

Zofran

For treatment of patients with hyperemesis gravidarum for the term of the pregnancy following failure of other antiemetic regimens.

PEGFILGRASTIM

Inj 6 mg per 0.6 ml prefilled syringe

Indefinite supply for any appropriate indication for the management of patients with cancer.

PENTAMIDINE

Inj 300 mg

Indefinite supply for any appropriate indication

PHENINDIONE

Tab 10 mg
Tab 25 mg
Tab 50 mg

Indefinite supply for warfarin resistance anti-coagulation therapy (Section 29)

PIPERACILLIN SODIUM

Inj 2 g

Inj 4 g

For any indication approved by the hospital service, with review at 6 weeks.

PIPERACILLIN WITH TAZOBACTAM

Inj 4 g with tazobactam 500 mg

For any indication approved by the hospital service, with review at 6 weeks.

POLYHEXAMETHYLENE BIGUANIDE

Eye drops 0.02%

For a period of 3 months for treatment of acanthamoeba keratitis.

PRAZIQUANTEL

Tab 500 mg ~~S29~~

Cysticide

For the treatment of worm infestations (Section 29)

PRIMAQUINE

Tab 2.5 mg

Tab 5 mg

Tab 7.5 mg

Indefinite supply for any appropriate indication (Section 29)

PYRIMETHAMINE

Tab 25 mg ~~S29~~

For the treatment of toxoplasmosis in patients with HIV for a period of 3 months;

For pregnant patients for the term of the pregnancy;

For infants with congenital toxoplasmosis until 12 months of age.

SODIUM CHLORIDE

Tab 600 mg

Slow Sodium

Indefinite supply for salt wasting nephropathy (Section 29)

Inj 0.9%

Where required for injection of antibiotic treatment funded under DCS or HEC

SPECIAL FOOD SUPPLEMENT

Liquid, 237 ml

Impact

Advanced

Recovery

Vanilla and

Chocolate

Three packs of 237 mls per days for 5 to 7 days prior to major gastrointestinal or head or neck surgery.

SULPHADIAZINE

Tab 500 mg ~~S29~~

For the treatment of toxoplasmosis in patients with HIV for a period of 3 months;

For pregnant patients for the term of the pregnancy;

For infants with congenital toxoplasmosis until 12 months of age.

TEICOPLANIN

Inj 400 mg

For any indication approved by the hospital service, with review at 6 weeks.

TICARCILLIN DISODIUM WITH CLAVULANIC ACID

Inj 3 g with clavulanic acid 0.1 g

For any indication approved by the hospital service, with review at 6 weeks.

TINZAPARIN SODIUM

Inj 3,500 anti-Xa IU/0.35 ml	Innohep
Inj 4,500 anti-Xa IU/0.45 ml	Innohep
Inj 10,000 anti-Xa IU/0.5 ml	Innohep
Inj 14,000 anti-Xa IU/0.7 ml	Innohep
Inj 18,000 anti-Xa IU/0.9 ml	Innohep
Inj 20,000 anti-Xa IU/ml, 2 ml	Innohep

For the treatment of venous thromboembolism (VTE) for a maximum of 14 days or until a stabilised therapeutic INR is established.

For a maximum treatment period from the time of diagnosis to 8 weeks post partum for a confirmed thromboembolic event during pregnancy.

For prophylaxis of thromboembolism for patients considered high risk after consultation with a specialist from diagnosis of pregnancy to 8 weeks post partum.

For a maximum treatment period from diagnosis of pregnancy to 8 weeks post partum for women normally maintained on long-term oral anticoagulation who are at very high risk of thromboembolism.

For the treatment for a maximum of 7 days pre and post operatively for patients on oral anticoagulants requiring surgical intervention in a public hospital or until an appropriate therapeutic INR level is reached.

For a maximum of 14 days treatment in high-risk patients

post pelvic, colo-rectal and major orthopaedic surgery.

For a maximum of 7 days treatment for patients with an acute coronary syndrome (ACS) awaiting further hospital intervention.

For a maximum of 14 days treatment post cardioversion in non anticoagulated patients with atrial fibrillation or until appropriate therapeutic INR level is reached.

For treatment of malignancy - associated venous thromboembolism.

TOBRAMYCIN

Inj 40 mg per ml, 2 ml

Indefinite supply for any indication approved by the hospital service.

TRIMETHOPRIM

Tab 100 mg

Indefinite supply for any appropriate indication (Section 29)

VALGANCICLOVIR

Tab 450 mg

Up to 14 weeks supply for cytomegalovirus (CMV) retinitis in immunocompromised patients and prophylaxis of CMV following solid organ transplant

VANCOMYCIN HYDROCHLORIDE

Inj 50 mg per ml, 10 ml

For any indication approved by the hospital service, with review at 6 weeks.

WATER

Purified for inj

Where required for injection of antibiotic treatment funded under DCS or HEC

- R -		Salbutamol with ipratropium bromide	54	Sonaflam	45
RA-Morph	44	Salicylic acid	54	Sorbolene with glycerin	56
Raltegravir potassium	52	Salmeterol	54	Sotalol	56
Ranbaxy-Cefaclor	22	Sandimmun	26	Spacer device	56
Ranitidine hydrochloride	52	Sandomigran	49	Span-K	50
Rapamune	54	Sandostatin	46	Special food supplement Contracted	57
Rapilysin	52	Sandostatin LAR	46	DCS	66
Recombinant factor VIII	52	SC Profi-Fine	37	Spiriva	59
Redipred	50	Scopoderm TTS Contracted	36	Spirolactone	58
Regitine	49	DCS	65	Spirotone	58
Remicade	36	Sebizole	38	Sprycel	27
Remifentanil hydrochloride	52	Serenace	34	StarQuin 10%	36
ReoPro	16	Seretide	32	Starquin 200 6%	36
Resource Arginaid	57	Seretide Accuhaler	32	Stesolid	27
Resource Beneprotein	57	Serevent	54	Strattera	18
Resource Diabetic	57	Serevent Accuhaler	54	Streptase	58
Reteplase	52	Serophene	24	Streptokinase	58
Retinol palmitate	52	Seroquel	51	Stromectol	38
Retrovir	61	Sertraline	54	Sulphadiazine	66
ReVia	45	Sevoflurane	54	Sulphasalazine	58
Reyataz	18	Sevredol	45	Sulphur	58
Ridal	53	Silver sulphadiazine	54	Sumatriptan	58
Rifabutin	52	Simulect	19	Sunitinib	58
Riodine	50	Simvastatin	54	Sunscreens, proprietary	58
Risperdal	53	Sinemet	40	Suprane	27
Risperdal Consta	53	Sinemet CR	40	Survanta	19
Risperdal Quicklet	53	Sirolimus	54	Sustagen Hospital Formula	57
Risperidone	53	Siterone	26	Sutant	58
Risperon	53	Slow Sodium	66	Suxamethonium chloride	58
Ritalin	43	Slow-Lopresor	43	Symmetrel	17
Ritalin LA	43	Sodibic	55	Synacthen	59
Ritalin SR	43	Sodium acid phosphate	55	Synacthen Depot	59
Ritonavir	53	Sodium alginate	55	Synermox	17
Rituximab	53	Sodium bicarbonate	55	Syntocinon	47
Rivaroxaban	53	Sodium chloride Contracted	55	Syntometrine	48
Rivotril	25	DCS	66	Syrup (pharmaceutical grade)	58
Rizatriptan benzoate	53	Sodium chloride with glucose	55	- T -	
Rocaltrol	21	Sodium citrate with sodium lauryl sulphoacetate	55	Tacrolimus	58
Rocuronium bromide	53	Sodium citro-tartrate	55	Tambocor	31
Ropin	53			Tambocor CR	31
Ropinrole hydrochloride	53			Tamoxifen citrate	58
Ropivacaine hydrochloride	54				

INDEX

Generic Chemicals and Brands

Tamoxifen Sandoz	58	Trimethoprim	
Tamsulosin hydrochloride	58	Contracted	60
Tamsulosin-Rex	58	DCS	67
Tar with triethanolamine lauryl sulphate and fluorescein	58	Tropisetron	60
Tarceva	29	Two Cal HN	57
Tazocin EF	49		
Teicoplanin	67	- U -	
Temazepam	58	Ultiva	52
Temodal	59	Ultraproct	32
Temozolomide	59	Univent	38
Tenofovir disoproxil fumarate	59	Ural	55
Tenoxicam	59	Urex Forte	33
Terbinafine	59	Uromitexan	42
Terlipressin	59	Ursodeoxycholic acid	60
Testosterone	59		
Testosterone cypionate	59	- V -	
Testosterone undecanoate	59	Valaciclovir	60
Tetracosactrin	59	Valganciclovir	67
Ticarcillin disodium with clavulanic acid	67	Valtrex	60
Timolol maleate	59	Vancomycin hydrochloride	
Timoptol XE	59	Contracted	60
Tinzaparin sodium	67	DCS	67
Tiotropium bromide	59	Varenicline tartrate	60
Tirofiban hydrochloride	59	Venlafaxine	61
TMP	60	Venofer	38
Tobramycin		Ventavis	36
Contracted	59	Ventolin	54
DCS	67	Vepesid	30
Tofranil	36	Veracol	23
Tolbutamide	59	Verapamil hydrochloride	61
Topamax	59	Vergo 16	19
Topiramate	59	Verpamil SR	61
Tracleer	20	Vesanoid	60
Tracrrium	18	Vesicare	56
Tramadol hydrochloride	60	Vinblastine sulphate	61
Tramal 100	60	Vincristine sulphate	61
Tramal 50	60	Vinorelbine	61
Tramal Retard	60	Viramune	45
Tranexamic acid	60	Viramune Suspension	45
Trastuzumab	60	Viread	59
Tretinoin	60	Visipaque	37
Triamcinolone acetonide	60	Vistil	49
Triamcinolone acetonide with gramicidin, neomycin and nystatin	60	Vistil Forte	49
Triamizide	60	Vital HN	57
Triamterene with hydrochlorothiazide	60	Vitala-C	18
Trichazole	44	Vivonex Paediatric	57
		Vivonex TEN	57
		Volibris	17
